

"When my family had to find a place for my grandmother to go when she needed more care than we could give her in her own home, I learned first-hand what people go through in making that decision. Years later, my father and I began Cortland Place, with memories of that experience guiding our choice of location, staff, and programs.

– Norman Audino, Jr.

We wanted a place where caring and skilled professionals would care for loved ones. We wanted a place where they could feel safe and be happy. **A place that feels like home...Cortland Place."**

– Norman Audino, Sr.

Because Family Matters.

Independent & Assisted Living, Skilled Nursing, Dementia Care

"What my dad and I started as a labor of love — is now our family's legacy."

Cortland Place

20 Austin Avenue, Greenville, RI 02828

Cortland Place is located on 8.5 wooded acres in the heart of rustic Greenville, Rhode Island. Our community is nestled in a natural park-like setting, with shade trees, beautiful flowers, and flowing streams.

At Cortland Place, your loved ones feel secure and well cared for — because our staff treats our residents just as you would — **like family**.

Our Home...

Camelot...

Camelot is our secured wing specially designed for our residents who are memory-impaired. There are 16 rooms, each reflecting the individuals' independent spirit. Residents have a place for the personal mementos of their lives, giving them the comfort of familiarity.

We provide our Camelot residents the safety, security, and supervision of trained professionals whose sole purpose is to care just for them. Camelot's dining room area and cooking area welcome residents, their families, and our staff to share in a good meal together. Residents also enjoy a private outside patio.

Because
Family Matters.

While some facilities specialize in just providing Assisted Living or Alzheimer's and Dementia Care, Cortland prides itself on offering a continuum of care. If your loved one should need skilled nursing care, we provide it. If they need to move into an early Alzheimer's unit, we can take care of that also. There's no reason to look elsewhere because we take a whole-person approach to care, ***all under one roof.***

DIRECTIONS to Cortland Place
20 Austin Avenue, Greenville, RI 02828

From Interstate 295 North or South, take Exit 7B (Greenville) for Route 44 West. After the seventh traffic light (at the junction of Route 116), proceed a short distance and then bear right onto Austin Avenue. Cortland Place is a quarter mile up on the left-hand side.
